Summary

Shared HR and Finance guide for triaging payroll mistakes and adjustment requests.

Triage

- HR verifies employee identity, region, payroll period, and supporting documents.
- Finance reviews approved adjustments only after HR removes unrelated sensitive details.

Common Issues

- Common payroll issues include missing bank update, incorrect tax region, unpaid leave adjustment, and delayed benefits deduction.
- Employees should submit issues through HR tickets rather than direct Finance messages.

Escalation

- High-impact payroll errors require HR lead and Finance payroll owner review within two working days.
