- Allowed users: none

Summary

IT restricted device tracking procedure for assignment, returns, retirement, and inventory reconciliation.

Assignment

- Every laptop must have asset tag, assigned user, serial number placeholder, location, and security-agent status.
- New joiner devices should be assigned before day one when possible.

Returns

- Returned devices must be checked for condition, encryption status, and offboarding wipe completion.
- Missing devices require IT and Admin coordination.

Retirement

- Retired devices must be wiped, logged, and marked inactive in inventory before disposal.

Data Generation Notice

- This is synthetic NexusOne Technologies data for local RAG, SQL, FAISS, and permission-filter testing.
- Do not replace this file with real company, employee, customer, vendor, financial, HR, security, or acquisition data.
