- Allowed roles: it_admin, ceo
- Allowed groups: it_team
- Allowed users: none

Summary

IT restricted process for production, admin, and break-glass access approval.

Standard Approval

- Privileged access requires business reason, system owner, manager approval, scope, and expiration.
- Production access must be least privilege and time-limited.

Break-Glass

- Break-glass access is allowed only for active incidents with incident commander approval.
- All actions must be reviewed within one working day.

Removal

- Access must be removed at expiration and evidence must be attached to the ticket.

Data Generation Notice

- This is synthetic NexusOne Technologies data for local RAG, SQL, FAISS, and permission-filter testing.
- Do not replace this file with real company, employee, customer, vendor, financial, HR, security, or acquisition data.
