Summary

Manager checklist for new joiner onboarding before day one and through the first week.

Before Day One

- Confirm buddy, team calendar, role goals, starter tasks, and system access requirements.
- Engineering managers should list GitHub team, AWS account need, Jira project, and service ownership context.

First Week

- Managers should run daily check-ins, explain team rituals, confirm tool access, and review security expectations.
- Blockers should be logged as IT, HR, Admin, or Finance tickets.

Completion

- The onboarding checklist is complete after goals, tools, equipment, and manager expectations are confirmed.

Data Generation Notice
